

Cyber Security

Secure Your Networked World

Our Cyber Security Program is built on two holistic principles - combining technology and the appropriate, proactive procedures. This better enables us to work with you in determining the operational plan and tactical steps necessary to establish a multi-layered cyber protection universe.

Know Yourself:

Risk management is the art of the possible. We will work with you to assess your risks pragmatically.

This discovery process includes:

- ✓ Sensitive Information identification, classification, review and analysis
- ✓ Asset inventory and management review
- ✓ Policy and process review
- ✓ Personnel security review

Know Your Enemy:

There are five tasks you should execute to better "Know Your Enemy":

- ✓ Qualitative assessment of existing cyber security posture
- ✓ Technical snapshot: assessing vulnerability of networks & systems
- ✓ Develop "where you should be" (ISO 27000 series)
- ✓ Review personnel security programs (hiring, social media, visitors, etc.)
- ✓ Create a competitive intelligence program

We surround you, your family, your home, your transportation modes and your work environment – worldwide – with holistic, multi-layers of detection, protection and deterrence.

Our Services (partial list):

- ✓ Security Policy Planning
- ✓ Complete Network Security
- ✓ Executive Cyber Security – at home, in the office and on the road (for individuals and their entire families)
- ✓ Business Continuity Planning & Management
- ✓ Training (review, develop, refresh)
- ✓ Audits and Red Teams
- ✓ Compliance Management
