Risk Management

Manage Your Risks, So They Don't Manage You

Directors and executives have an ongoing responsibility to maximize the protection of their organization's critical assets (people, processes, operations).

TAL Global's experienced Risk Management practice will help your organization identify and mitigate risk factors such as:

- ✓ Workplace violence
- ✓ Terrorists threats
- ✓ Crimes against assets & people
- ✓ Cyber crime

We will provide management and personnel with the information and the tools you need to make informed decisions on critical issues at critical times.

We will work with you to minimize your exposure and vulnerabilities and actively protect your critical infrastructure and assets.

Our goal is to ensure that your specific risks are managed wisely, aggressively and cost-effectively.

Every one of our specialized departments (Cyber Security, Counter-Terrorism, Emergency Management, Protection and Security) will take part in a concerted effort to identify and isolate vulnerabilities before they become liabilities.

Just like the proactive way you run your business, we don't believe in waiting for risks to become problems or disasters. That's why we will work with your organization to create and maintain a culture of resilience, using the following tools:

- ✓ Ongoing analysis and auditing
- ✓ Constant monitoring
- ✓ Preparation
- ✓ Training
- ✓ Tested readiness

We will use a disciplined process of risk identification and management to ensure that your organization is always ready to face the expected, and capable of mounting a rapid response and recovery when/if the unexpected occurs.

Our Services:

- ✓ Risk Assessment
- ✓ Vulnerability & Threats Evaluation
- ✓ Precipitating Events Evaluation
- ✓ Assessment Models Preparation
- ✓ Mitigation & Containment Plans
